

“Elevator Technology: Where it’s been. Where it’s going.”

Take advantage of this opportunity to not only provide your team with a registered AIA/CES session for continuing professional education but also learn more about a world class elevator company and its products.

Key Objectives:

- Elevator History
- Conventional/Technological Advances
- MRL cost/space saving, and sustainability benefits

Where: AIA Central Valley Chapter, 1400 S St, Sacramento

When: July 20th 2010, 12-1:00 pm

Why: Because it is essential to ensure efficient and sustainable people flow solutions in the buildings you design (lunch will be provided).

Please RSVP to Andrew Hirsh no later than July 7th 2010
