

AIA Central Valley

Tour of Butte College Campus & Social Event in the Chapter's Chico Membership Area

Join us this summer as we travel to Oroville for a tour of the Butte College campus, followed by a social /refreshment hour and brief presentation with members of the AIACV Board of Directors.

Butte College is located an hour and ten minutes north of Sacramento, nestled in the Sierra Nevada foothills. The main campus is a designated wildlife refuge and rests on 928 acres. The campus is a leader in sustainability and has recently announced it will be the first college in the U.S. to be "grid positive" by May 2011.

Attendees will learn about many of these projects during a short presentation, and then have the opportunity to walk the campus and see the several first hand, including the new LEED Gold Certified Arts Center and Student Administrative Services Building (up for LEED Gold Certification) along with the Allied Health & Public Services Center and Learning Resource Center.

Interested in carpooling to this event?

Please contact Kim Anderson at the Chapter office: (916) 379-8798 or e-mail kanderson@aiacv.org.

Date: Thursday, August 26, 2010
